RSPM Achiever Series Package Air Conditioners

Cooling Efficiency: 14 SEER

Peace of Mind

Relax with Ruud. Our Package Air Conditioners include a list of features that ensure performance that will keep your home comfortable for years to come. We also offer some of the best warranties¹ in the industry.

Reliability

We're serious about the quality of all of our products. That's why our Package Air Conditioners are developed with technology that provides unmatched reliability and durability for years of worry-free operation.

RELY ON RUUD.™

Ruud.com

Ruud Philosophy of Reliability

Designed to keep your family comfortable for years to come, Ruud® products are developed using the 360°+1 design philosophy. The Ruud brand strives to deliver the very best homeowner experience by evaluating every detail of the product from every angle. That's 360°+1. And that's why you can Rely on Ruud™ to bring you and your family years of comfort.

All Wrapped Up

The Ruud Achiever® Series Package Air Conditioners offer comfort that fits your lifestyle and budget. Unique design features are built in to deliver years of reliable and efficient operation. It's all the comfort you deserve, wrapped up in one smart unit.

Reliability

It's essential—that's why we've designed our Package Air Conditioners with a galvanized steel cabinet that protects your unit from the elements. Our slim design occupies less room in your yard and installs with a flush fit against your home. Four service panels provide your technician easy access to all internal components, keeping service time and expense to an absolute minimum. We've also included a louvered coil protection to prevent damage to the coil fin. This added protection keeps the coil running longer for a better overall performance from your unit.

Energy Efficient

Our units are also designed with scroll compressor technology for enhanced reliability, performance and efficiencies. You'll like the way it operates—and you'll love the difference it makes on your energy bill. And our motor mount prevents damage to your fan motor, extending its service life.

Quieter Operation

A durable cabinet design combined with our scroll compressor and an elevated base pan helps reduce noise for comfort that's as quiet as it is reliable.
