

- More/better options for wall mount applications
 - Art Cool Gallery and Art Cool Mirror

This addresses the most common objection that contractors run into
- Superior heating performance
 - Even on standard models
- Broad range of high heat models
 - Art Cool Premier (LG Red) — 1:1 models in 9, 12, 15, 18, and 24,000 BTU's
- Simple Wi-Fi connectivity using Smart AC accessory (PCRCUDT3) on many models
 - Some models with on-board Wi-Fi
- Base pan heaters
 - Standard on most models, optional on others
- Widest range of multi zone systems
 - 18,000—60,000 BTU's
- 5 ton single phase VRF system **with heat recovery**
- LG standard units operate to 0 degrees in cooling only applications by adding a wind baffle
- Wide range of control options
 - Wireless controllers standard on all but ducted models
 - Wired controllers standard on ducted systems
 - Simple Wi-Fi
 - Dry contacts for 3rd party controls
 - Integration to BMS
- LG Sims 2.0 Diagnostic tool
- LG LATS
 - System selection program for VRF and Multi F
- Excellence Contractor Program
 - Includes LG Perks Plus
- LG Brand name
